---

### Biography of Alex Todd

Alex Todd is Founder and President of Trust Enabling Strategies, a professional services company that helps organizations involved with e-commerce, outsourcing, governance and economic development initiatives to build and maintain confidence in the information and processes that engage their stakeholders.

Alex's methods for engineering trust are derived from his initial thought-leadership work as a Senior Trust Consultant with IBM's Global PKI Center of Competency, where he helped to define future services required to support IBM's "Business On Demand" strategy. Alex has delivered trust-consulting engagements to "very satisfied" regional and multinational clients in the financial services, distribution, transportation, high technology and public sectors, in Europe, North America and South America. Alex's approach to trust has been published by IBM Global Services' Executive Tek Report - available on IBM's web site at [http://www-1.ibm.com/services/insights/etr\\_trust.html](http://www-1.ibm.com/services/insights/etr_trust.html). He has delivered more than two-dozen speaking engagements to private and public sector customers from North America, Japan and Europe and at numerous security and privacy conferences, including the RSA Conference, "The World's Largest E-Security Conference and Expo". Professional periodicals have published his numerous articles and Alex has participated on several advisory boards.

Before joining IBM, Alex held an executive position with a publicly traded company that developed a patented new PKI technology for securing electronic messages. BYTE Magazine recognized him as an innovator and entrepreneur for developing natural-language personal information management, PIM, software before Microsoft Windows was a standard. He successfully sold these products online before the World Wide Web was invented. His international career has taken him worldwide including to the United States, the United Kingdom, Sweden, the Netherlands, Germany, Switzerland, Barbados and Israel.

Alex Todd holds a Bachelor of Commerce Degree from the University of Toronto and is an IBM Certified Consultant, distinguished by to one IBM Global Services Principal as "a trusted advisor to clients" with "a passion to change the world".

---
